

WIITALITY: HANDS FREE WII FIT WIIMOTE ARMBAND

Category : WII-PARTS

The Wiitality Armband for Nintendo Wii - puts wii control on your wrist or bicep while you exercise!

The only accessory that should have been included with every Wii Fit balance board is now available! The Wiitality is a neoprene band that holds your wii remote (wiimote) on your wrist or arm, while you exercise.

When doing many Wii Fit exercises, its necessary to put down the wiimote, pick it up, and put it down again. The Wiitality solves the problem of having to hold your wiimote in your hand while doing many wii fit exercises, including many Yoga, Strength, and Aerobic exercises.

As an additional benefit, it leaves both hands free to hold matching hand weights.

One size fits all, thanks to convenient velcro fasteners. Can fit on the bicep or on your wrist, depending on your arm size.
